

BALBOA PARK LAND USE, CIRCULATION AND PARKING STUDY

SAN DIEGO, CALIFORNIA

CITY OF SAN DIEGO PARK AND RECREATION DEPARTMENT

Balboa Park is one the nation's largest and most diverse urban parks. In response to growing use, we worked with park stakeholders to preserve the park's magical balance of formal gardens, natural open spaces and cultural attractions.

We worked with cultural institutions, community leaders and city staff to forge consensus on the Park's core values. Our recommendations on land use, circulation and parking—resulting from our approach of listening to the land—are helping restore a balance between the Park's unique variety of parklands, institutions and facilities.

The restored balance will help continue Balboa Park's legacy as a source of national pride and cultural significance.

FACTS

- 1,200 acres
- Site for the 1915 Panama-Columbia Exposition
- Over 90 educational and cultural institutions
- Home of San Diego Zoo
- Rich botanical resources
- Recreational facilities

BENEFITS

- Integration of growth and complex uses
- Preservation of historic legacy
