

# GREAT SPOKANE RIVER GORGE STRATEGIC MASTER PLAN

SPOKANE, WASHINGTON

FRIENDS OF THE FALLS

**The master plan presents comprehensive strategies to integrate the natural, cultural and recreational resources of this great natural resource with downtown and the surrounding neighborhoods.**

The plan was developed with extensive public participation. Jones & Jones provided strategies and guidelines for interpretation and wayfinding around the Gorge, innovative stormwater management using natural drainage systems, and grazing to remove invasive species and restore native habitat throughout the Gorge.

The activation of the Gorge river corridor will further economic revitalization and enhance the value of the Gorge to the City and the region at large.

## FACTS

- 11-mile river corridor
- Support from broad-based coalition
- 15 spin-off projects

## BENEFITS

- Enhanced recreational, educational and cultural opportunities
- Ecological restoration
- Driver of regional economic development
- Civic pride
