

ALBUQUERQUE BIOPARK "BUGARIUM" *WITH NCA ARCHITECTS

ALBUQUERQUE, NEW MEXICO

ALBUQUERQUE BIOPARK

Jones & Jones is collaborating in designing a facility that will immerse visitors in the world of insects.

The facility, comprised of a 3,000 square foot building and a 6,500 square foot pond and habitat, will lure visitors into a native New Mexico riverine environment—where they will encounter myriad native insects, muskrats, turtles, numerous bird species and other wildlife of the New Mexico desert. The interactive environment will convey stories of insects' importance to animals, plants, and human beings.

QUICK FACTS

- Landscape design using native plants
- Outdoor exhibit of birds, mammals and insects
- Interpretive displays
